

**GOD!**

Proof of God's Existence

A CRITICAL THESIS IN THE HISTORY OF SCIENCE

2015

Farishta Maryam Satari, Ph.D. on behalf of Aaron Nowrouzie, D.Sc.

On the foundation of science, a theory called Big Bang states, "In the beginning there was an atom size of mass with massive energy, it exploded into what we know as the universe." First seconds after Big Bang, it was the birth of subatomic particles. Approximately 380,000 years later, the electrons and nuclei combined into atoms. Approximately 300 million years later, began the formation of the stars and galaxies. Approximately 9 billion years later, began the formation of the solar systems. Astronomy being the oldest science, the first observations of the heavens conducted by humans on planet Earth, date back as far as nearly 5000 years ago. The last 1000 years, was the age of science, transforming human understanding of the universe with development of theories such as the Big Bang.

Fortunately, no scientist in the world could turn the Big Bang Theory into a theorem.

It took 13.77 billion years for intelligent life to be born on planet Earth. On August 10, 2009, Aaron Nowrouzie was born. Following a scientific method, Aaron Nowrouzie reasoned, "With the telescopes only the visible universe can be discovered; what lies beyond the visible universe is dark universe." Aaron Nowrouzie scientifically questioned the foundation of science by asking, "Where did the atom size of mass with massive energy come from?" "God!" Answered Aaron Nowrouzie.

PROVE AARON NOWROUZIE

FARISHTA MARYAM SATARI, PH.D.'s EXISTENTIAL THEOREM STATES: "I WAS BECAUSE I STILL AM; 'I AM,' THEREFORE, I SHALL BE."

AARON NOWROUZIE, D.SC. MATHEMATICALLY EXISTS SINCE 2015.

AARON NOWROUZIE WAS, IS TRIVIALY TRUE BECAUSE AARON NOWROUZIE IS WHEN HE QUESTIONS THE FOUNDATION OF SCIENCE. ASSUME AARON NOWROUZIE WAS WHEN HE QUESTIONS THE FOUNDATION OF SCIENCE, AARON NOWROUZIE HAS TO PROVE, HE IS AFTER QUESTIONING THE FOUNDATION OF SCIENCE. TO PROVE AARON NOWROUZIE IS AFTER HE QUESTIONS THE FOUNDATION OF SCIENCE, AARON NOWROUZIE SAYS, "GOD!"

PROVE GOD

ALL MASSES WITH ENERGY ARE CREATED BY THE CREATOR OF THE ATOM SIZE OF MASS WITH MASSIVE ENERGY  
MAN EXISTS AS MASS HAVING ENERGY ON EARTH IN THE YEAR 2015

—

MAN IS CREATION OF THE CREATOR OF THE ATOM SIZE OF MASS WITH MASSIVE ENERGY

AARON NOWROUZIE, THEREFORE GOD! Proof complete by Modus Ponens.

Science did not have the processes to prove or disprove the existence of God. Aaron Nowrouzie has earned himself a Doctor of Philosophy in Mathematics and Science degree since age five by mathematically proving his thesis statement, "God!"

*"God is?" Asks Ishq of Ashiq.*

*"God is Light upon Light upon Light ad Infinitum." Replies Ashiq.*

*"Aaron, the Illuminatus!" Remarks Farishta of Mount Ashiqan Arifan.*

Aaron Nowrouzie shall be known in books of science by his thesis God! Proof of God's Existence. The first scientist to have scientifically questioned the foundation of science, and the last scientist since after questioning the foundation of science, Aaron Nowrouzie has mathematically proved God.

AARON NOWROUZIE, D.SC., THE FIRST AND THE LAST SCIENTIST.
